Your whole day is in one app.

Where to knock, who said what, every inspection you booked, and your numbers. If it isn't logged in the app, it didn't happen, and nobody can credit it to you.

SIGN IN

- Go to **poweredgetx.com/login** and enter your work email. Tap the link in the email that arrives. No password.
- You stay signed in for 30 days on that phone.
- Put it on your home screen. iPhone: in Safari tap Share, then Add to Home Screen. Android: in Chrome tap the menu, then Add to Home screen.

THE TABS

TAB	WHAT IT'S FOR
Today	Your goals for the day and week, how you're tracking, what's next.
Map	The knock map: every storm-hit house near you, with what happened at each door.
Inspections	What's coming up, and every inspection you booked in the last 60 days: held ($50) or not, and why. Closers find it in the menu under your initial, top right.
Jobs	Each booked house as it moves: Inspection booked, Inspected, Agreement sent, Signed, In production, Complete.
Agreement	Closers only: write and e-sign the homeowner's repair agreement on the phone.
Your initial (top right)	The menu: Scoreboard, Getting started (your checklist and signed agreement), Storm alerts, Playbook.

The map opens for knocking once you've finished **Getting started**: your details, the agreement, your W-9, direct deposit and the compliance check. City permits don't hold it up.

THE KNOCK MAP

- Tap **Near me**, or type a ZIP. Switch **Map** and **Aerial** top right to see the roofs.
- Pin colors: **gray** not knocked · **yellow** working · **red** said no · **green** signed or done · **hollow ring** not home · **dark ring** priority knock · **blue** roof permit in the last 10 years (Dallas), likely already replaced.
- Doors are listed by street. Work a street end to end; the map fills in as you go.
- Tap a house for **Roof and storms** (its hail history), **Directions**, and **Call** when there's a number that isn't on Do Not Call. "Knock only" means don't call it.

AT EACH DOOR

Every door gets one of four taps: **Not home**, **Come back** (set the time), **Said no** (pick the reason), or **Book inspection**.

Book inspection opens the closer windows that are free. Pick one with the homeowner, confirm their name and phone or email, leave the closer a note, done. The job, the closer, the homeowner's confirmation and the closer's email all happen from that one button.

AFTER THE BOOKING

- The house shows up in **Inspections** and **Jobs**. Follow it there; you don't need to call the office.
- Closers: on the job, add your inspection photos and record what you found that day, including whether the homeowner was there. Homeowner there, photos in, and PowerEdge's first inspection at that address: that's a held inspection, and it's how your knocker gets their $50.
- Closers: write the agreement in the **Agreement** tab. The homeowner's email is required; it's how they get their copy and their cancellation notice.

YOUR NUMBERS

The **Scoreboard** (in the menu under your initial) shows your numbers and your team's, ranked, for today, this week and this month. Knockers see doors, inspections set, sets per 100 doors, roofs and revenue. Closers also see close rate and profit per roof. The office emails each of you a scorecard every week.

> **Stuck?** Call or text the office at 469-277-9594. If the app won't load at a door, write the address and window on an appointment card and log it as soon as you have signal.
